

## OCCUPATIONAL HEALTH & SAFETY MANAGEMENT SYSTEM

COMPANY'S POLICIES AND MANAGEMENT COMMITMENT  
ENVIRONMENTAL POLICY & ENERGY EFFICIENCY MANAGEMENT POLICY

### ***Environmental Policy & Energy Efficiency Management Policy***

**ALPHA GAS S.A** commits to continually improve its environmental performance in all areas required by the international regulations and laws and to ensure:

- *Pollution prevention that emphasizes on source reduction, including necessary funding and human resources, to effectively maintain the onboard systems, equipment, and components.*
- *Minimization of the environmental impact of its operations.*
- *Continuous reduction of environmental risks.*

***Our goal is to achieve***

***Zero spills or releases to the environment***

***and***

***reduction of the permitted emissions aiming to Zero.***

To achieve this goal, **ALPHA GAS S.A:**

- *Complies with all applicable environmental laws, regulations, and requirements and applies responsible standards where laws, regulations, and requirements do not exist.*
- *Responds quickly and effectively to environmental incidents resulting from its operations.*
- *Assesses all identified risks for the environment and establishes appropriate safeguards by minimizing its impact on biodiversity and by using energy efficiently.*
- *Shows concern and respect for the environment, emphasizes on every employee's responsibility toward environmental performance and fosters appropriate operating practices and training.*
- *Promote energy efficiency awareness through training to all employees.*
- *Undertakes appropriate reviews and evaluations of its operations to measure progress and to foster compliance with this Policy.*
- *Raises awareness of the threat that climate change poses to environmental sustainability, health and wellbeing of communities and future generations.*
- *Shares its experience with others to facilitate improvements in the industry's performance.*
- *Manages its business to prevent environmental incidents.*
- *Designs, operates, and maintains facilities to this end.*
- *Establish an Environmental & Energy Management Plan, incorporated into its Safety Management System with the aim to continually improve Company's environmental & energy performance.*
- *Increase energy efficiency and minimize energy waste. A set of time-specific, measurable – whenever practicable – and achievable targets are established and maintained, which relate to a combination of design optimization, in-service performance monitoring, and best-practice operational management processes.*
- *Provide the framework for setting and reviewing environmental & energy objectives and targets and ensure the availability of information and of necessary resources for their achievement.*
- *To develop and provide our services in such a way as to minimize their environmental & energy impacts and improve their understanding at all stages by any of our customer and the international community, whilst ensuring they are safe for their intended use and efficient in their consumption of energy and natural resources.*
- *Annually review Environmental Protection & Energy Efficiency Policy with the aim of being kept always updated.*

## OCCUPATIONAL HEALTH & SAFETY MANAGEMENT SYSTEM

COMPANY'S POLICIES AND MANAGEMENT COMMITMENT
